Komal Pawar

Panvel, Navi Mumbai | 932-456-6790 | kdpawar9820@gmail.com | linkedin.com/in/komal-pawar-6b7a692a2 | github.com/komalpawar79

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production-style web applications using the MERN/PERN stack. Experienced in developing secure authentication systems, role-based access control, RESTful APIs, and real-time features across freelance client work and two full-stack projects (CampusConnect, QuickBite). Comfortable working across the stack — from responsive React interfaces to Node.js/Express backends and PostgreSQL/MongoDB databases.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS

Frontend: React.js, React Hooks, Tailwind CSS, Zustand

Backend: Node.js, Express.js, REST APIs, Socket.IO

Databases: MongoDB, PostgreSQL, Prisma ORM

Authentication: JWT, Bcrypt, Google OAuth 2.0

Tools & Services: Git, GitHub, VS Code, Postman, Vercel, Render, Cloudinary, Recharts

EXPERIENCE

Freelance Web Developer — Full Stack Developer *Panvel, Navi Mumbai*

Dec 2025 – Present

- Developed full-stack web applications using React.js, Node.js, and Express.js based on real client requirements and business workflows.
- Built responsive, reusable React components for dashboards, forms, authentication flows, and data-driven interfaces.
- Designed and implemented RESTful APIs for CRUD operations, authentication, and frontend-backend communication.
- Integrated APIs with React applications, handling form validation, asynchronous data flow, loading states, and error handling to ensure reliable client-facing functionality.

Frontend Developer — NestCraft Design *Kharghar, Navi Mumbai*

June 2025 – Sep 2025

- Developed reusable React.js components and integrated them into responsive web pages based on design and functional requirements.
- Refined layouts, navigation, spacing, and component structure to improve usability and maintain consistent UI across pages.
- Identified and resolved frontend UI issues, improving CSS organization and maintaining clean, maintainable React code.

PROJECTS

CampusConnect — University Placement Management System *Live Demo*

- Built a full-stack university placement management system using React.js, TypeScript, Node.js, Express.js, and PostgreSQL with Prisma ORM.
- Implemented secure authentication and role-based access control using JWT, Bcrypt, and Google OAuth 2.0, with protected Role Guard-based portals for different user roles.
- Developed department-targeted job postings, broadcast notifications, profile-completeness gating, and student eligibility workflows to streamline the placement process.
- Integrated PDF/DOCX resume parsing, Cloudinary-based media storage, Recharts-driven analytics dashboards, and Excel export functionality for placement data.

QuickBite — Campus Food Delivery System *Live Demo*

- Built a full-stack campus food delivery system using React.js, Tailwind CSS, Zustand, Node.js, Express.js, Socket.IO, JWT, and MongoDB Atlas.
- Designed a multi-canteen ordering system supporting pre-orders, digital wallet payments, and real-time order tracking.
- Developed role-based portals for students, staff, and canteen managers, covering order, menu, pricing, and sales management workflows.
- Implemented WebSocket-based live order updates and an admin dashboard for revenue analytics, user management, and notifications.

EDUCATION

Bachelor of Computer Applications (BCA) *Aug 2023 – May 2026*

Chhatrapati Shivaji Maharaj University, Panvel, Navi Mumbai | CGPA: 9.62

Higher Secondary Certificate (HSC) – Science *June 2020 – March 2022*

B.K. Birla College of Arts, Science and Commerce, Kalyan, Mumbai
